- Laminating / Seaming / V-Groove systems
- Automates Adhesive Application
- Provides the Strength of Epoxy, the Speed and Color stability of Acrylic
- Reduce Waste, Eliminate Hand Mixing and Tinting
- 200 colors create invisible seams and laminations
- Polish to match the gloss of surrounding material
- Strongest bonds on the largest selection of materials
- Standard formulations develop handling strength in as little as 20 minutes

Surface Bonder cartridge comes with (2) static mixing tips.

250ml DISPENSER

- 18:1 Thrust Ratio - Easy Action & No Cartridge Blow Outs
- Dedicated 10:1 Mix Ratio - No Hand Mixing
- Drip Free Mechanism - No Waste & Less Mess
 - Releases back pressure helping to ensure an even cure
- Quality, All Steel Construction
- Compact & Light

Composite Bonder RTP01

Premium grade, toughened Methacrylate adhesive, used to create a fast curing, strong, flexible bond to a wide variety of substrates. Composite Bonder can be used to attach many dissimilar materials to Solid Surface, Granite or Engineered Stone, such as Steel, Aluminum, and Fiberglass Composites, PVC, ABS, etc.

Recommended adhesive for installing under mount fasteners due to its high strength, exibility and impact resistance. This toughened Methacrylate adhesive is packaged in standard dual component cartridges and is used to bond metal fasteners to Solid Surfaces, Natural Stone and Quartz Surfacing materials.

Applications

- Undermount Sink Kits
- Composites
- FRP
- Metals
- PVC
- ABS
- PA (Nylon)

Advantages

- Impact Resistant
- Flexible
- High Strength
- Fast Curing
- Cartridge System

Characteristics

- Working Time 8 /10 minutes
- Fixture Time 15/25 minutes

Part No.		Each Price
IA000RTP01	100ml	\$14.67

Fits in a standard caulking gun. RTP01 cartridge comes with (1) static mixing tip.

Rodding Compound RD50

A fast curing, low waste, labor saving adhesive for embedding rods in Granite, Marble and Engineered Stone countertops.

- Application Method Eliminates Hand Mixing
- Reduces Labor and Waste to Produces a Low Cost system for reinforcing stone
- Reduce or Eliminate Breakage, (double the flexural strength of most natural stone)
- Adheres to steel and fiberglass reinforcing rods
- 15 minute cure time

Part No.		Each Price
IA000RD50	500ml	\$31.33

RD50 cartridge comes with (4) rodding mixing tips.
