Composite Bonder RTP01

Premium grade, toughened Methacrylate adhesive, used to create a fast curing, strong, flexible bond to a wide variety of substrates.

Composite Bonder can be used to attach many dissimilar materials to Solid Surface, Granite or Engineered Stone, such as Steel, Aluminum, and Fiberglass Composites, PVC, ABS, etc.

Recommended adhesive for installing under mount fasteners due to its high strength, exibility and impact resistance.

This toughened Methacrylate adhesive is packaged in standard dual component cartridges and is used to bond metal fasteners to Solid Surfaces, Natural Stone and Quartz Surfacing materials.

Applications

- Undermount Sink Kits
- Composites
- FRP
- Metals
- PVC
- ABS
- PA (Nylon)
